

HOLLYMATIC 3000 MIXER/GRINDER

IT'S PERFECT. THE HOLLYMATIC 3000 MIXER/GRINDER FILLS THE GAP BETWEEN TOO BIG AND TOO SMALL.

If your operation is somewhere between a supermarket and a large industrial processor...the Hollymatic 3000 Mixer/Grinder is perfect for you. Output rates can exceed 5,940 lb/hr, with a second cut output rate of up to 65 lb/min through a 1/8" plate (depending on product). Solidly constructed of heavy gauge stainless steel with seam welded corners throughout, the Hollymatic 3000 offers smooth, easy to clean surfaces.

The removable stainless steel mixing arm offers an efficient mix and dispersion of the product and is programmed with an automatic forward-reverse duty cycle. The feed screw channel empties fully without squashing or pulping the product.

Stainless steel feed screw, grinding head and adapter ring are standard. Pneumatic foot control is available to assist in filling trays for display. Powered by two independent gear reduction units, the Hollymatic 3000 delivers quiet and continuous, trouble free operation.
